

ABA:74277734

VMH

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant shows a bright, localized spot of fluorescence, which is labeled 'ABA:74277734' at the top and 'VMH' at the bottom. The rest of the brain section is dimly fluorescent, appearing as a light blue/grey area against a dark background.
