

ABA:74431472

VMH

The image shows a coronal section of a rodent brain. A large, irregularly shaped area in the medial prefrontal cortex is highlighted in a solid blue color. This area is roughly symmetrical about the midline and extends laterally and anteriorly. The rest of the brain slice is black. A white crosshair is centered on the brain, with a vertical line and a horizontal line intersecting at the midline. The text 'ABA:74431472' is in the top left corner, and 'VMH' is in the bottom left corner.
