

ABA:74510236

LH

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain is represented by a blue, textured area. A prominent, localized area of high activity, indicated by yellow and red colors, is visible in the upper left quadrant. The rest of the brain shows low activity, represented by blue. A vertical line and a horizontal line intersect at the center of the brain, dividing it into four quadrants. The text 'ABA:74510236' is in the top left corner, and 'LH' is in the bottom left corner.
