

ABA:74580829

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is divided into two main regions by a vertical white line. The left region shows a complex, multi-colored pattern of fluorescence, with a prominent yellow and green area at the top and a smaller yellow spot near the bottom. The right region is a solid, uniform blue. A horizontal white line intersects the vertical one, creating a crosshair. The text 'ABA:74580829' is in the top left, and 'VMH' is in the bottom left.
