

ABA: 74988721

Hb

This is an axial brain scan image, likely from a functional imaging technique such as fMRI or PET. The image shows a cross-section of the brain with a color scale ranging from dark blue (low concentration) to yellow (high concentration). The brain's gyri and sulci are visible. A vertical white line and a horizontal white line intersect at the center of the brain, dividing it into four quadrants. The text 'ABA: 74988721' is located in the top left corner, and 'Hb' is located in the bottom left corner.
