

ABA: 75038463

VA/VL

A brain scan image, likely an MRI, showing a cross-section of the brain. The image is predominantly black, with a large, irregularly shaped blue region in the center, which appears to be a lesion or an area of abnormality. The blue region is roughly circular but has some internal structure and irregular edges. A white grid is overlaid on the image, consisting of a vertical line and a horizontal line that intersect in the center of the brain. The text 'ABA: 75038463' is in the top left corner, and 'VA/VL' is in the bottom left corner.
