

ABA: 75749418

ventral S

This is a fluorescence microscopy image of a brain section, likely a coronal slice. The image shows two bright, curved structures, possibly representing the cerebral hemispheres or specific brain regions, highlighted in yellow and green against a dark blue background. The structures are separated by a vertical line, suggesting a midline or a specific anatomical division. The overall shape is roughly oval, with the bright areas forming a ring-like pattern. The text 'ABA: 75749418' is in the top left, and 'ventral S' is in the bottom left.
