

ABA:75773704

CA1

A brain scan image, likely an MRI, showing a cross-section of the brain. The image is predominantly black, with a bright blue region on the left side, which is labeled 'CA1'. The blue region appears to be a specific area of interest, possibly a lesion or a region of abnormality. The image is overlaid with a white grid, consisting of a vertical line and a horizontal line, which divide the image into four quadrants. The label 'ABA:75773704' is located in the top left corner, and 'CA1' is located in the bottom left corner.
