

ABA:75774678

VMH

A coronal brain scan image showing a cross-section of the brain. The image is predominantly blue, indicating a specific signal or activation. A vertical white line runs down the center, and a horizontal white line runs across the middle. The text 'ABA:75774678' is in the top left, and 'VMH' is in the bottom left. The brain structure shows a central dark region, likely the ventricles, and surrounding lighter blue areas representing brain tissue. The activation is visible as a brighter blue area in the upper part of the brain, symmetrically placed on both sides of the midline.
