

ABA:76115733

SPa dorsal

The image is a coronal brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain tissue is represented by a blue, textured area. A prominent, bright yellow-green spot is visible on the midline, just above the brainstem, indicating a region of high metabolic or functional activity. The image is divided into four quadrants by a horizontal and a vertical white line. The text 'ABA:76115733' is in the top-left corner, and 'SPa dorsal' is in the bottom-left corner.
