

ABA:77465024

SCN

The image is a coronal brain scan, likely an MRI, showing two hemispheres. A blue highlighted region is visible in the left hemisphere, possibly indicating a lesion or area of interest. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA:77465024' is in the top-left quadrant, and 'SCN' is in the bottom-left quadrant.
